

ASHISH BENDALE

Backend Developer/AI ML Engineer

Nashik, Maharashtra, India | +91 7498757213 | ashishbendale3@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

BCA student at Savitribai Phule Pune University (CGPA 9.73) with hands-on experience across three AI and software development internships. Comfortable working across the stack with Python, C/C++, Node.js, Django, React.js, and REST APIs, with additional grounding in networking protocols and cybersecurity fundamentals. Has independently built and deployed full-stack projects, including an AI-assisted government schemes platform and an AI-driven travel planning tool. Looking for a Backend or Full Stack Developer role to apply this experience to production-grade systems.

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript, SQL, HTML, CSS

Frameworks & Libraries: Node.js, Express.js, Django, React.js

Databases: MongoDB, SQL

Tools & Platforms: Git, GitHub, VS Code, REST API Integration, Postman

Other: AI/ML fundamentals, Cybersecurity fundamentals, Networking protocols, Problem-Solving, Team Collaboration, Leadership

EDUCATION

Bachelor of Computer Applications (BCA)

2024 - 2027 (Expected)

Savitribai Phule Pune University | CGPA: 9.73

- Relevant coursework: C, C++, Python Programming

Higher Secondary Certificate (HSC)

2022 – 2024

Maharashtra State Board | CGPA: 8.30

EXPERIENCE

Cybersecurity Intern - VOIS for Tech

Aug 2025 - Dec 2025

Remote

- Gained hands-on exposure to multiple operating systems, including Windows and Linux, through practical lab-based exercises.
- Studied and applied core networking protocols (TCP/IP, DNS, HTTP/HTTPS) to understand common network attack surfaces.
- Worked with industry-standard cybersecurity and network monitoring tools to identify basic vulnerabilities.
- Built foundational knowledge of system and network security relevant to securing backend infrastructure.

AI Intern - IBM SkillsBuild Internship

Dec 2025 - Feb 2026(15 Weeks)

Remote

- Developed Python-based AI applications as part of a structured, mentor-guided internship curriculum.
- Built and evaluated machine learning models for real-world use cases.
- Collaborated with a team on shared assignments, coordinating tasks and reviewing each other's work.
- Used Git for version control and maintained a clean commit history across project iterations.

AI/ML Virtual Intern - Infosys Springboard

Dec 2025 - Feb 2026 (12 weeks)

Remote

- Completed the Infosys Springboard AI Virtual Internship Program, covering model building, data preprocessing, and predictive analytics.
- Applied NLP techniques to project-based learning modules using Python.
- Worked on real-world datasets to practice the end-to-end machine learning workflow, from cleaning to evaluation.

PROJECTS

GovSchemes - AI-Assisted Government Scheme Discovery Platform

2025

- Built a web-based assistant that helps Indian citizens discover, verify, and apply for government welfare schemes with real-time AI support.

- Designed the frontend in React.js and the backend with Node.js and Express.js, connected through REST APIs. Used MongoDB for schema data storage and Python for supporting AI/data logic.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Python, REST API

AI-Powered Research Paper Summarizer

Feb 2026

- Built a tool that parses research paper PDFs and generates structured summaries covering objectives, methods, and conclusions.
- Implemented semantic search and a context-aware, multilingual AI chat interface for querying paper content.
- Automated extraction of key technical insights to reduce manual reading time for research documents.

BantaiPlanner - Student Travel Intelligence Platform

Winter 2025

- Built an AI-driven travel planning tool for students, optimizing itineraries for Memory-Per-Rupee (MPR) value.
- Implemented activity clustering logic to reduce transit costs and time between planned stops.
- Built "Bantai AI," a multilingual (English/Hindi/Marathi) assistant to help users navigate budget-conscious trip planning.

CERTIFICATIONS

- Defronix Certified Junior Security Practitioner - Defronix Academy (Feb 2025 - Jun 2025)
- Advanced Backend Web Development - Udemy (Jun 2024 - Dec 2024)
- Build a Chat Application with Firebase, Flutter and Provider - Udemy (Jun 2025 - Dec 2025)
- The Complete Python Developer - Udemy (Nov 2025 - May 2026)
